

Introduction

IOSH Leading Safely is designed to give anyone with leadership responsibilities the practical knowledge and strategic know-how to achieve sustainable business advantage through good safety and health practice.

Who is the course for?

Anyone with leadership responsibilities – senior managers, directors, heads of departments, executives, board members, business owners, chief executives and trustees. It's also suitable for anyone who aspires to these roles, and anyone who wants to share the same language so they can feel confident entering into discussions with people at a leadership level.

Benefits for Employer

- ▶ Reduce accident rates, absence and sick leave
- ▶ Increased productivity and profits
- ▶ Improved reputation among suppliers, clients and partners
- ▶ Reduced insurance premiums and legal costs
- ▶ Better business continuity

Benefits for Learners

- ▶ Have added confidence in your ability to lead your team safely and efficiently
- ▶ Be able to confidently demonstrate the leadership skills required so you can climb the employment ladder
- ▶ If not already in a leadership role, this course offers the philosophies you need to safely lead a team in the future.
