

Introduction

The IEMA Certificate in Environmental Management Distance course is available from **30 January 2022**.

The IEMA Certificate in Environmental Management is a powerful course that will change how you operate with a mindset on environmental impact and sustainability. This course will enable you to make a positive difference as a sustainability practitioner. It will cover a wide range of environmental and sustainability issues to allow you to become a practitioner who can drive change in organisations. The course introduces a practical approach enabling organisations to improve their environmental performance, adopt a progressive sustainable platform and reduce their impacts, both strategically and operationally.

Who is the course for?

The course is perfect for anyone wishing to upgrade their IEMA membership to Practitioner Level (PIEMA) and Registered Environmental Practitioner (REnVP). It is designed to give individuals a comprehensive understanding of ecological sustainability, making them or their businesses environmentally friendly and healthier.

Studying the course in the **Distance format** ensures learners have maximum control and flexibility in their training. Learners will have downloadable IEMA approved course notes allowing them to learn when and wherever they wish. The course will be complemented with rich multi-media video-based content, with immersive features helping to expand learning. All learners will have exercises designed to test their knowledge with best-practice feedback.

Benefits for Employers

- ▶ Employers can have confidence in the knowledge that their workforce understands the core fundamentals of environmental management practices in the workplace.
- ▶ Businesses that train their workforce in the latest environmental practices will find it easier to comply with regulatory standards.
- ▶ Employers do not have to worry about the training interrupting the work schedule. The Distance format is designed to allow the learner to work at their pace. Learners will have access to three additional Astutis learner manuals to complement each module of the course.

Course Key Facts
