

# Safety Essentials

## Learning happens anywhere, anytime.

We know that investing in health and safety is a critical aspect of running your business. Make the most of your training budget with our latest training bundle offer.

Fitting in training around work commitments becomes seamless with the Astutis self-led micro-learning modules available within our online courses – all designed to facilitate essential skill development on your schedule.

Ensure your employees are consistently identifying and eliminating risks before they begin each task they undertake. Complete the online training at your own pace and on your own time.

### The Astutis Online 5 Course Bundle Offer

50% online training cash-back credit available on first purchase:

- ▶ Includes access to our award winning online Learning Campus
- ▶ Multi-buy discount pricing available

Platinum 5-Star Customer Rating

*"Learners enrolled onto this programme of 5 workplace training courses can be from any area in the business. Through the courses, even new comers to health and safety are able to accomplish their daily tasks in a safe and compliant manner."*

– Daniel Kerr, Online Course Learning Manager

### Client feedback:

*"I had always wanted to advance my knowledge in essential health and safety to progress my career. Astutis gave me the ability to do this at my own pace and fit the learning around my work and for that I'd recommend them to any organisation."*

– Neil, ISS World

## The Astutis 5 Learning Principles built into every Online Course

When people learn, they prefer engaging, useful, and convenient training content.

This means short, sharp, and practical materials.

Here's our recipe for design success.

- ▶ **Learnability** is paramount, as it involves crafting our content and interactions in a way that supports learning and retention, ensuring an effective and engaging experience for all - worthy of a 5-Star review.
- ▶ **Accessibility** is a key component of our course as it ensures that our learners, including those with disabilities, can access and engage with the content and resources in a barrier-free manner, promoting inclusivity and equitable learning opportunities.
- ▶ **Effectiveness** of the design and pace of learning is the secret ingredient behind our course structure. Courses include quizzes and regular challenges to check knowledge levels. It's a surefire way to keep their attention.
- ▶ **Simplicity** and a distraction-free design optimise the power of the working memory to learn what is essential – cutting back on the wall of text helps learners pass the course the first time.
- ▶ **Assessments** ensure that our learners have retained the most out of the course. Loved by learners' certificates upon passing the course evidence of learning outcomes and are a tangible piece of the experience.
