

IOSH Safety for Executives and Directors

Astutis.

Introduction

The IOSH Safety for Executives and Directors provides CEOs and Directors with a complete understanding of health and safety responsibilities and the moral, legal and financial benefits of proactive safety, health and risk management.

This course will help Directors fully understand their personal and corporate liabilities.

Who is the course for?

The course is designed for those in senior executive or director roles looking to sharpen their health safety philosophies. The course will provide any eager to learn individuals with the essential protocols and knowledge required to lead and influence any organisation.

Benefits for Learners

- ▶ Begin to fully understand directorial and corporate liabilities.
- ▶ Understand the moral, legal and financial arguments for risk management
- ▶ Confidently devise a risk management strategy
- ▶ Competently integrate all of the above into the day to day running of the business
- ▶ Lead by example and command respect from your employees over your attitudes on health and safety.

Benefits for Employers

- ▶ Have confidence knowing your most superior employees have a comprehensive understanding of how to manage safely.

Course Key Facts

Duration: One day

Course Content

The course is structured around five key modules:

- ▶ 1. The moral, legal and financial case
- ▶ 2. Plan – planning for health and safety
- ▶ 3. Do – implementing health and safety
- ▶ 4. Check – monitoring health and safety performance
- ▶ 5. Act – improving health and safety performance

Assessment

It involves a personal commitment (action plan) relating to the learning on the course; you must write up to three actions that you commit to taking in your workplace appropriate to your level of responsibility.

On successful completion of the action plan you will receive an IOSH approved certificate.

- ▶ Watch the training trickledown through your company and witness the health and safety culture thrive.
- ▶ Enhance your brand reputation with a higher standard of health and safety.
