NEBOSH General Certificate in Occupational Health and Safety Virtual Course

What does it include?

The virtual course is a safe, reliable way to undertake your critical training. Get immersive, tutor-led HSE training with all the benefits of traditional classroom training.

- ▶ Tuition from CMIOSH, PIEMA and CEnv tutors in a virtual classroom environment;
- ▶ Course materials delivered straight to your business, facility or directly to your home;
- ▶ Group discussions on real workplace scenarios to stimulate debate and challenge perceptions;
- ▶ Practical exercises and activities that test understanding and prepare you for your exams;
- ▶ Collaborative study with multiple, simultaneous working groups in virtual break-out rooms;
- ▶ Multimedia rich material to suit all learning styles and preferences;
- ▶ Dedicated support from our tutors, technical team and customer service team at all times.

IEMA Environmental Sustainability Skills

What does it include?

Online learning is an interactive, digital approach to studying. Immerse yourself in activities, videos and podcasts as you work through a structured learning plan.

- ▶ Fully-optimised digital PDF course materials, created by qualified learning designers and graphic designers;
- ▶ Learning activities that help challenge your thinking and build confidence;
- ▶ Interactive, practical exercises that build your confidence and apply your learning in real-world scenarios;
- ▶ 24/7 access to an award winning Learning Management System, accessible for any mobile device;
- ▶ 7-day a week customer service to help with any technical issues or course advice;
- ▶ Access to a range of extra resources to enhance your learning experience.

What's in the Welcome Box?

- ▶ Full colour printed course notes
- ▶ Sony Smartphones, with high quality and balanced sound
- ▶ VirtualRocks note book and pen
- ▶ VirtualRocks mug and refreshments

How does Virtual Learning work?

Our daily tutor-led sessions will be scheduled at a time that suits your business and held through video conferencing software, usually Microsoft Teams. We'll send all learners joining instructions before the course starts. All they need to do is click on the access link at the agreed time to join the virtual classroom alongside their colleagues.

We suggest that all learners check they meet the video conferencing system requirements and run a test meeting to make sure the software is compatible with your firewall settings. If it doesn't work, try adjusting your settings or contact your IT department. If all else fails, get in touch with us to discuss alternative video conferencing software.

What equipment do I need?

Reliable broadband

A PC or laptop with a camera and a microphone is strongly recommended

Access to video conferencing software

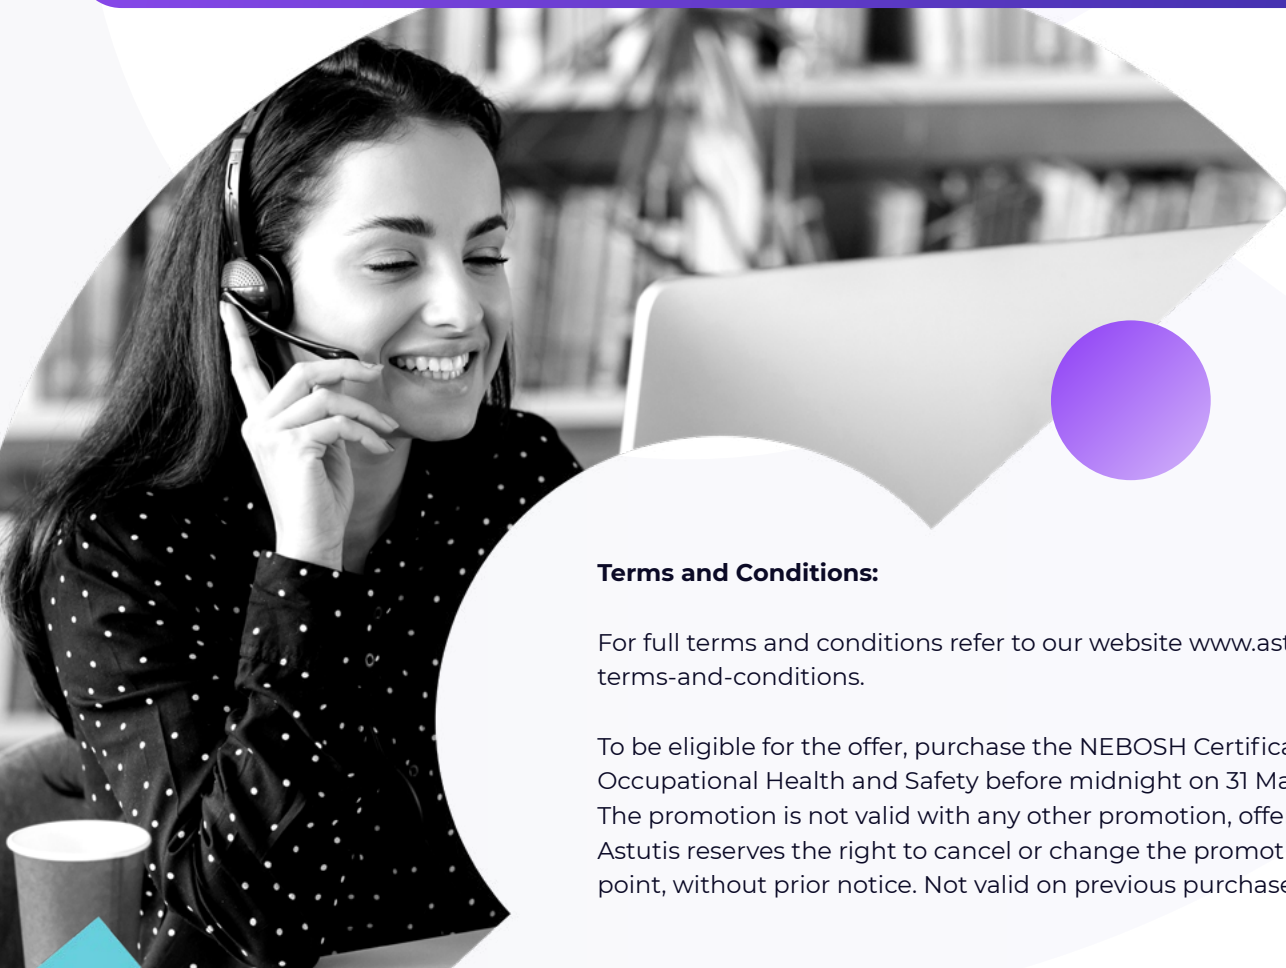

Headphones are optional, but a pair with a built-in mic is recommended

Access to your Course Notes

Access to an email account to receive joining instructions
