Workplace Safety Suite.

iirsm

ROSPA

An ever-growing suite of accredited safety training **for your entire workforce.**

What is the Workplace Safety Suite?

The Workplace Safety Suite is a scalable online training solution that provides organisations with access to a curated library of accredited workplace safety courses.

It enables businesses to standardise compliance training, improve workforce wellbeing, and build a proactive safety culture through flexible digital learning.

Who is the Workplace Safety Suite for?

The Workplace Safety Suite is designed for large and medium-sized organisations that need a scalable way to deliver consistent workplace safety training across employees, managers, and contractors.

It is particularly suited to multi-site and hybrid workforces where maintaining consistency, compliance, and oversight can be challenging.

It is built for organisations looking to simplify training management while strengthening compliance and workforce capability at scale.

Company Benefits

- **Strengthen compliance across your organisation:**
  Deliver consistent, accredited workplace safety training across all teams and locations to ensure uniform standards at scale.
- **Reduce workplace risk:**
  Improve awareness and understanding through standardised training that supports safer behaviours and better decision-making.
- **Increase employee engagement:**
  Drive participation and knowledge retention with interactive, accessible online learning designed for modern workforces.
- **Consolidate training providers:**
  Replace multiple suppliers with one flexible solution, reducing complexity, duplication, and administration.
- **Scale onboarding and training with ease:**
  Train new starters and growing teams quickly and consistently through a scalable digital learning solution.
- **Reduce administrative workload:**
  Centralise training delivery, tracking, and reporting to simplify management.

Online Training Benefits

Online learning is an interactive digital approach that enables employees to learn through structured modules, videos, activities, and scenario-based learning.

All courses are built on secure, award-winning learning platforms, providing organisations with clear visibility of learner progress and performance through robust reporting and analytics.

Key Benefits for Employers

- **Cost efficiency**
  Reduces travel, accommodation, and physical training costs.
- **Flexibility and convenience**
  Enables employees to learn at their own pace, anytime and anywhere.
- **Scalability**
  Easily deploy training across teams, sites, and global workforces.
- **Wide range of content**
  Access a broad and evolving library of accredited courses.
- **Quick deployment**
  Training can be rolled out rapidly across your organisation.
- **Real-time tracking and analytics**
  Monitor learner progress, performance, and compliance in one place.
- **Accessible and inclusive design**
  Courses are designed to WCAG 2.2 AA standards, supporting diverse learner needs.
