## IOSH Managing Safely - Course Content

This course is split into 8 modules:

- **Introducing Managing Safely**
- **Investigating Accidents and Incidents**
- **Human Factors**
- **Assessing Risk**
- **Controlling Risk**
- **Understanding Manager's Responsibilities**
- **Common Hazards**
- **Measuring Performance**

### Who is IOSH Managing Safely for?

The course is designed for managers and supervisors working in any sector anywhere in the world.

### How is IOSH Managing Safely assessed?

There is a 45 minute multiple choice test which is completed after the whole online course has been accessed. A practical workplace risk assessment assignment is then completed within 2 weeks of the course ending.

**“A very good course. It provides a lot of information and it is easy to put into practice when you come to do the assessments.”**

**IOSH Managing Safely Course, Online Learner 2018**
